#### **GENERATE A Future of Possibilities**

As one of North America's leading electricity producers, **Ontario Power Generation** offers challenging opportunities and career diversity in a work environment where safety is a fundamental value - and where you can realize your personal and professional goals.

JOB TITLE:	Hydroelectric Operating Technician Trainee	
LOCATION:	Niagara, Cornwall, Timmins and Thunder Bay	
STATUS:	Regular Full-time	
EDUCATION LEVEL:	2 Year Diploma in related studies - i.e. Power Engineering, Instrumentation, Electrical Diploma	
SHIFT(S):	Shift Work (Rotating Days/Nights)	
TRAVEL:	Travel and occasional overnight stays required	
DEADLINE TO APPLY:	February 13, 2018	

#### JOB OVERVIEW

Ontario Power Generation (OPG) is looking for results-driven professionals who are looking to take the next step in their career, to join our team in the role of **Hydroelectric Operating Technician Trainee** located at our Northwest Operations (Thunder Bay); Northeast Operations (Timmins); Niagara Operations (Niagara) and Eastern Operations (Cornwall).

Reporting to the First Line Manager, Hydro Operations, the **Hydroelectric Operating Technician Trainee** is responsible for carrying out and overseeing operating activities to ensure the safe and reliable operation of equipment, units and control dams. This role monitors the levels and flows of rivers, ensuring they are in compliance with environmental requirements. The **Hydroelectric Operating Technician Trainee** is trained to recognize abnormalities, inefficiencies and hazards, analyze, troubleshoot and take corrective action.

The Hydroelectric Operation Technician Trainee Program is two years in length and will require the selected candidates to complete six training sessions and gain on the job experience by working 8, 10 and 12 hours shift. Travel and occasional overnight stays at other OPG sites and remote locations is required. The trainees will be required to pass a final exam in order to become Hydroelectric Operating Technicians.

As part of the selection process, applicants will be required to successfully complete aptitude testing.

#### **KEY ACCOUNTABILITIES**

- On a shift or day basis, participate in planning and carry out operating activities for generating stations, control dams and related facilities and structures.
- Ensure the safe and reliable operation of all assigned equipment, units, control dams, related storage and other facilities and structures, auxiliary equipment and systems. Recognize abnormalities, inefficiencies and hazards. Analyze, troubleshoot and take corrective action.
- Perform all aspects of work protection code (WPC) activities up to level trained. Act as a controlling/issuing authority of assigned equipment as required.
- Participate in the control of various watersheds by meeting legal, regulatory, social and environmental limits and constraints.

- Participate in prioritizing, processing, scheduling and coordinating all equipment outages affecting facility operations. Take lead role in assessing equipment outage applications to initiate further actions.
- Participate in coordinating, processing and schedule outages. Recommend solutions to planning and scheduling issues created by emerging and unplanned events.

#### **EDUCATION**

- Grade 12 and two year diploma in related study such as 2 year Power Engineering, Instrumentation, or Electrical Diploma.
- · Candidates must provide proof of education

#### **QUALIFICATIONS**

We are seeking to invest two years of very specific and highly sought out hydroelectric training in a professional with the following:

- Experience of a practical nature, preferably associated with operating, electrical trades;
- Knowledge of and willingness to use appropriate safety measures and equipment;
- Demonstrated ability to explain practical technical knowledge relating to previous work experience and/or education;
- Able and willing to work in a Control Room environment and react to multiple requirements at a time;
- Excellent interpersonal skills and ability to interact and communicate with a broad range of people (verbal and in writing);
- Flexible/adaptable regarding changes in work routine and travel to other work locations;
- Ability to perform effective prioritization and ability/past experience with multitasking situations;
- Can demonstrate project/team skills with ability to assume leadership role;
- · Proficient in Microsoft Word and Excel;
- · Ability to work variable shifts and under station working conditions;
- Ability to travel
- Valid Class G Drivers Licence;
- Proven experience in a control room environment electrical, utility as a power engineer is an asset;
- Knowledge and experience of hydroelectric generators, protection systems, governor systems, etc. is an asset.

The successful candidate will exhibit uncompromising integrity and commitment to upholding corporate values, and the OPG Code of Business Conduct.

#### WHY OPG?

We offer an exciting combination of challenging opportunities and career diversity in a work environment where safety is a fundamental value and where you can realize your long-term personal and professional goals. Being an OPG employee means you can apply your knowledge, broaden your skills and make a valuable contribution to an organization that is vital to Ontario's success.

At OPG our values are our strengths. They are fundamental truths about our organization that don't change. Safety. Integrity. Excellence. People and Citizenship.

As Ontario's largest clean energy generator, Ontario Power Generation (OPG) offers an exciting combination of challenging opportunities and career diversity in a work environment where safety is a fundamental value. Being an OPG employee means you can apply your knowledge, broaden your skills and make a valuable contribution to an organization that is vital to Ontario's success.

#### Here's why OPG might just be the ideal workplace for you:

- Exceptional range of opportunities province-wide
- · Long-term career growth and development opportunities
- · Electricity is vital to the province

If you are looking to learn from others and be part of something important, and you are excited about the future of power generation, you will find the right fit at OPG.

#### WORKING ENVIRONMENT

We offer an environment that will support you in reaching your potential. OPG supports the principles and practices of diversity.

#### **ACCOMODATIONS**

OPG welcomes and encourages applications from people with disabilities. Accommodations are available on request for candidates taking part in all aspects of the selection process.

#### **APPLICATION PROCESS**

Please submit your application <u>online</u> at <u>www.mypowercareer.com</u> by **11:59 PM E.S.T.**, **February 13**, **2018**. OPG thanks all those who apply; however, only candidates considered for an interview will be contacted.
