Chalet Lodge Potential Employment Opportunities Hospitality & Tourism Training

The Red Rock Indian Band has outlined a list of Standards that will be required in order to become an employee at the lodge. These Standards are put in place to ensure customer satisfaction and return clients. One of the requirements will be to have completed the Hospitality and Tourism Training Program.

We are looking for those individuals interested in potential future employment opportunities at the Chalet Lodge.

On the following poster is the process in which will be followed to potentially participate in this training program. There are only 4 remaining seats offered at this time and those interested will undergo a screening process, in which the instructor will choose the remaining 4 that are best suited to participate in the program. The program will run from August 4 - 14, 2020. The training will be held at the Chalet House.

For more information on the program, and to go through the questionnaire process please contact Rosanna Kawitash. (contact information is provided on the flyer)

Deadline to apply is Tuesday, July 28, 2020.

Community Update

Dear Band and Community Members,

We hope that this letter finds you well during these strange and trying times. As many of you have seen in the news Ontario has begun the process of reopening. Chief and Council have been monitoring these situations closely, and are working with both the Federal and Provincial Government, and other subject matter experts to develop a plan to safely reopen the reserve. However, because of the uncertainty surrounding secondary outbreaks, the Chief and Council have taken certain precautions to protect our community from possible infections. These precautions include the cancellation of the following:

1. The Annual PowWow
2. The Annual Salmon Derby
3. All Social Programming.

Finally, due to the restrictions with the pandemic, we will be unable to host the Summer Student Program this year. We understand that many students depend on this program; however, with the closure of such a large portion of Ontario's Economy we have been unable to secure our usual placements with outside organizations. Furthermore, with the social distancing requirements, and safety restrictions we will be implementing when reopening RRIB Administration Office will make it impossible to accommodate the increase in staff that is represented by the number of student placements that are taken on internally.

We truly regret this decision because we understand that many of our youth enjoy and look forward to this program. We the Chief and Council would like to remind everyone to follow the Federal guidelines of social distancing measures, hand hygiene and to be mindful of your safety and that of the community and family when venturing out for shopping or appointments.

Miigwetch.

Chief and Council.

ATTENTION LAKE HELEN COMMUNITY MEMBERS

CERTARUS

Who is Certarus?

Certarus Ltd. Is the North American market leader in bulk Compressed Natural Gas (CNG) delivery. As a Canadian company incorporated in Alberta in 2012 and operating in Timmins Ontario since 2018, we have safely delivered over 85,000 loads of CNG from 32 compression stations to 244 unique clients. We are excited to expand into North Western Ontario.

What is CNG?

CNG is compressed natural gas. Compressing the gas allows enough of it to be transported to make it economical. Certarus take natural gas from the gas line and compresses it to 273 times its original density inside of CNG trailers. We then transport that gas to end users who otherwise use higher carbon fuels such as propane, diesel, fuel oil or heavier oils. This is good for the environment as it reduced greenhouse gas emissions by more than 20%. In addition, CNG remains in a gaseous state and therefore cannot contaminate soil or water.

What is our Project in the Town of Red Rock?

In Red Rock, we built a natural gas compression station to fill our CNG trailers. We chose this location for a few reasons:

- **There is good supply capacity in the gas line into the Town of Red Rock**
- **The parcel is next to the gas line, provides highway access and had the proper zoning**
- **It is close to potential clients along Highway 17**

The building on site contains two compressors and external coolers. The sea can houses our electrical panels and equipment. CNG trailers are now on site. In the future, we plan to build a shop on site to make it easier to perform maintenance on our equipment.

Certarus will provide more information through the Lake Helen Newsletter in future editions. In the meantime, please reach out with any questions you might have.
